

YAHOR LABANAU		SUMMARY	
<div>Software Testing Engineer</div> <div> <div> <div></div> <div>Belarus, Minsk</div> </div> <div> <div></div> <div></div> <div></div> <div></div> </div> </div> <div> <div></div> <div>+375 (25) 534-34-40</div> </div>		<ul style="list-style-type: none"> Software Testing Engineer with ~2 years of experience in manual web testing looking for a Remote job or Relocation opportunities. Will make a great addition to any team due to being proactive and willing to learn. Currently, learning Automation in Java to become a Full-stack QA Engineer so that I could be more involved in the SDLC by writing auto-tests on the manually documented the test-cases and reviewing those of others. Looking forward to new opportunities and possibilities to improve the delivery success of the projects I'm going to contribute to. <div>Experienced in:</div> <ul style="list-style-type: none"> Functional testing Regression testing Integration testing Compatibility testing GUI testing Exploratory testing API testing Pairwise testing Requirements analysis Test-cases development Defect management
