- Onboarding new team members and mentoring junior testers $% \left(x\right) =\left(x\right) +\left(x\right) +\left$
- Build deployment
- Web services and API testing
- Validating data in databases

EDUCATION

2016 - 2021

Minsk State Linguistic University

Diploma

Linguistics, Regional Geography, Pedagogy

08/2023 - in progress

RedRover QA Automation School (Stream 7)

10/2021 - 01/2022

EPAM JavaScript for Software Testing Engineers Program

08/2021 - 11/2021

EPAM Functional Testing Mentoring Program (Basic)

04/2022 - 04/2023 Compulsory Military Service (Belarus)

SUMMARY

• Software Testing Engineer with ~2 years of experience in manual web testing looking for a Remote job or Relocation opportunities.

· Will make a great addition to any team due to being proactive and

• Currently, learning Automation in Java to become a Full-stack QA

Engineer so that I could be more involved in the SDLC by writing auto-tests on the manually documented test-cases and reviewing

· Looking forward to new opportunities and possibilities to improve

the delivery success of the projects I'm going to contribute to.
